### Some key points about our string instrument rental/purchase program:

- We deal only in string instruments. Our specialization allows us to provide you with superior service at a lower cost.
- We lease only the finest student instruments available - all of which are on your school's approved instrument list.
- All instruments are adjusted in-shop by professional luthiers. Many adjustments & repairs can be performed while you wait.
- Our low cost maintenance policy protects you from any out-of-pocket expense. Our policy is inclusive and covers any problem including: broken strings, bridges, open seams, loose fingerboards, etc...

Our equity program is second to none! It allows all of your rental payments to apply towards purchase of a new, used or step-up instrument. And your equity is never capped. As long as you continually rent, your equity is building - without any time limits. No chain store, superstore or general music store can match our program. Only a violin shop can provide the quality of service and inventory you will need. If you are considering another rental agency, check their policy closely. A few dollars saved in the beginning may end up being very costly in the end. Hope to see you soon!
